## **CRITERIA FOR ATHLETE INCLUSION IN THE JADCO REGISTERED TESTING POOL**

### Registered Testing Pool (RTP)

The Registered Testing Pool is the group of top level athletes established separately by each International Federation and National Anti-Doping Organisation who are subject to both in-competition and out-of-competition testing as part of that International Federation or Organisation's Test Distribution Plan.

Inclusion in the JADCO's RTP is based on a number of criteria related to the athlete and the sport. These may include:

1. Athlete sport performance history.
2. Athletes over which JADCO has jurisdiction whom have been included in an international RTP.
3. Medal winners from the most recent Olympic/Paralympic Games or World Championships or other major games.
4. The top ranked athletes in each discipline and/or weight category.
5. Additional athletes from those disciplines and/or weight categories where doping may be of particular benefit.
6. Athletes whose performances are in the top 5/10/20 for the previous/current year.
7. Receiving financial assistance from the Jamaican government.
8. Athletes who were high priority for testing before they retired from the sport and who now wish to return from retirement to active participation in the sport.
9. Some or all members of the national representative teams that qualified for the most recent World Championships, Olympics or other major games.
10. Athletes who have achieved a significant and unexpected improvement in performance
11. Athletes who are serving periods of ineligibility, provisional suspension, or other sanction as consequences of Anti-Doping Rule Violations.
12. Withdrawal or absence from expected competition.
13. Additional athletes identified for target testing (e.g. athletes training with support personnel associated with doping practices and so on).
14. Athletes for whom reliable information from a third party has indicated possible doping practices.

*This list of criteria is subject to change.*
