Tia	Clayton	Athletics

CRITERIA FOR ATHLETE INCLUSION IN THE JADCO REGISTERED TESTING POOL

Registered Testing Pool (RTP) as stated by the International Standard for Testing and Investigations:

The pool of highest-priority Athletes established separately at the international level by International Federations and at the national level by National Anti-Doping Organizations, who are subject to focused In-Competition and Out-of-Competition Testing as part of that International Federation's or National Anti-Doping Organization's test distribution plan and therefore are required to provide whereabouts information as provided in Article 5.6 and the International Standard for Testing and Investigations.

Under the World Anti-Doping Programme, each national anti-doping organization must designate a pool of athletes who are subject to the highest level of anti-doping rules. JADCO is responsible for maintaining Jamaica's Registered Testing Pool.

Inclusion in JADCO's RTP is based on a number of criteria related to the athlete and the sport. These may include:

1. Athlete sport performance history.
2. Medal winners from the most recent Olympic/Paralympic Games or World Championships or other major games.
3. The top ranked athletes in each discipline and/or weight category.
4. Additional athletes from those disciplines and/or weight categories where doping may be of particular benefit.
5. Athletes whose performances are in the top 20 for the previous or current year.
6. Athletes receiving financial assistance from the Jamaican government.
7. Athletes who were high priority for testing before they retired from the sport and who now wish to return from retirement to active participation in the sport.
8. Some or all members of the national teams that qualified for the most recent World Championships, Olympics or other major games.
9. Athletes who have achieved a significant and unexpected improvement in performance.
10. Athletes who are serving periods of ineligibility, provisional suspension, or other sanction as consequences of Anti-Doping Rule Violations.
11. Withdrawal or absence from expected competition.

12. Additional athletes identified for target testing (e.g. athletes training with support personnel associated with doping practices and so on).
13. Athletes for whom reliable information from a third party has indicated possible doping practices.
14. Elite junior-level athlete on the cusp of senior competition.
15. Athlete who has sustained an injury.

This list of criteria is subject to change.
